

# CDS 301/501 - Homework 4

## Due Date

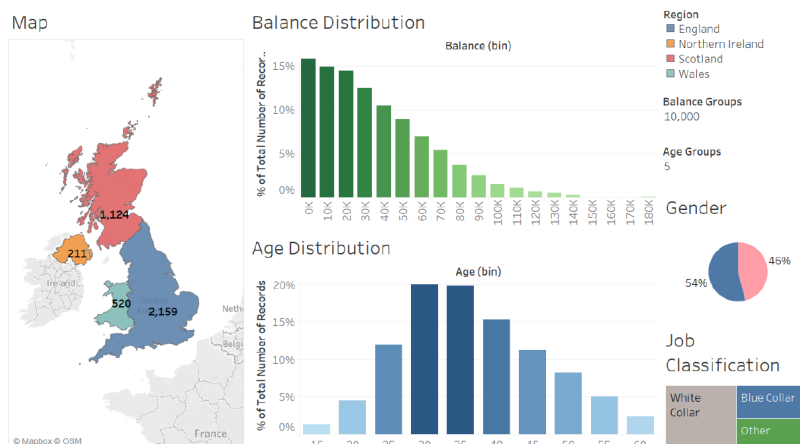

4:30pm, Monday February 24th, 2020

Please submit one pdf file to blackboard - it should have 1 visualization from the problem below.

**Reminder:** While not part of the homework, remember to turn in your Project Milestone 1 which identifies your team and initial project concept with data sources you've found so far. Each student should turn this in (not per team).

## Problem 1 - Dashboard

Follow the steps/notes in the file “uk-bank-problem-notes-0.pdf” to complete a Dashboard similar to the one shown below. After you complete the Dashboard - select Scotland on the map and take a screenshot of the dashboard in that state. Include the screenshot in your your report.

**Reminder:** There will be a quiz covering the Wilke chapters assigned so far (2,3,4,6,7(Histograms only)), and you should submit Term Project Milestone 1 (Team Identified / Initial Project Concept) by class next week.
